

SUNY Broome and Eastern Southern Tier STEM Hub Robotics Challenge

Wednesday April 1, 2020 at SUNY Broome

Regional schools have collaborated to create an event to showcase and test their talent with building and designing robots. The competition provides a stem focused event for local schools. In each challenge the teams compete for points or best time

The competition consists of six main events, they are:

- Large Swept Away Challenge
- Small Swept Away Challenge
- Autonomous Task Challenge
- Autonomous Line-Following Challenge
- Remote Control Forklift Challenge
- Maze Programming Challenge
